

Heavy Duty & Acoustic OPERATOR CABINS AND CONTROL ROOMS for the Timber/Lumber Industry

MECART designs and manufactures state-of-the-art operator cabins and control rooms for all types of equipment. Loud noise, vibration, excessive heat, cold, dust and other contaminants are controlled by these cabins. Your operators can site safely and comfortably at the heart of the action.

FULLY CUSTOMIZABLE

- > Higher Sound Attenuation (35, 45, or 52+ decibels)
- > Quality and Durability - Heavy duty galvanized steel
- > Quick Setup - Entirely Prefab (plug and play) or Modular Assembly On-Site
- > Utilities Integrated Within the Walls: telephones, fire alarm, A/C, electrical panel
- > Equipment integration (MCC and control panels)
- > Indoors or Outdoors Installation
- > Integrated Furniture and Operator Seat
- > Vibration Damping System
- > Structural Integrity

Give Optimal Visibility over the Production Line

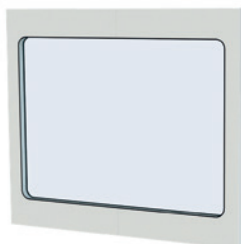

A wide range of windows is available to offer the visibility needed without compromising the acoustic performance.
